Professional Summary

Full-Stack Developer specializing in Next.js, TypeScript, Node.js, and NestJS, with experience building production-ready web applications and RESTful APIs. Experienced in authentication, role-based access control, database design, cloud deployment. Strong problem-solving background with competitive programming experience and a top 4% global ranking on BeeCrowd.

Skills

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Shadcn/UI, Redux, Zustand
Backend: Node.js, Express.js, NestJS, REST APIs, JWT, RBAC, Socket.IO
Database: PostgreSQL, MongoDB, Prisma, Mongoose, NeonDB
DevOps & Tools: Docker, Git, GitHub Actions, Linux, Vercel, Firebase, Postman, Swagger/OpenAPI

Experience

- Jr. Full Stack Developer** *Softvance Agency · Aug 2026 – Present*
- Developing production applications using Next.js, TypeScript, Node.js, NestJS, and RESTful APIs with auth and RBAC.
 - Building AI-powered features and integrations while working with PostgreSQL, Docker, and deployment workflows.
- Frontend Developer** *Softvance Agency · Jan 2026 – Jul 2026*
- Developed production applications using Next.js, TypeScript, and React.js, focused on performance, SEO, and responsive UI.
 - Built reusable components, managed state with Redux and Zustand, and contributed to AI-powered features and integrations.
- Frontend Developer Intern** *Zensoft Lab · Sep 2025 – Dec 2025*
- Developed web application features using React.js, focusing on reusable components and maintainable UI architecture.
 - Collaborated with the development team to deliver user-focused features and improve application usability and performance.

Projects

- CareCamp - Live**  **Client** — **Server** *MERN, Node.js, React, MongoDB, JWT, Stripe*
- Engineered a full-stack medical management platform with RESTful APIs, JWT authentication, and cloud-hosted MongoDB.
 - Integrated Stripe payments and Firebase Authentication, with responsive dashboards for users, bookings, and transactions.
- Gram2City - Live**  **Client** — **Server** *Next.js, TypeScript, Node.js, Express.js, MongoDB, JWT*
- Built a parcel delivery platform with Next.js, TypeScript, Node.js, Express.js, and MongoDB.
 - Implemented real-time delivery tracking, live chat, REST APIs, JWT authentication, and role-based access control.
- WhereIsIt - Live**  **Client** — **Server** *Next.js, TypeScript, Firebase, Node.js, Express.js, MongoDB*
- Built a community platform for reporting and discovering lost and found items using Next.js and TypeScript.
 - Implemented Firebase authentication, image uploads, search functionality, and recovery confirmation workflows.

Publications

Multimodal Lie Detection Using Speech and Video with Deep Neural Networks: First-author research using MFCC and ResNet-18 features, achieving 82% accuracy on DOLOS. *IEEE ICCIT 2025*

Training & Courses

Next Level Web Development — Programming Hero (Ongoing); Next.js, Node.js, PostgreSQL, System Design, AI
Web Development Bootcamp — Programming Hero (6 months); React, Node.js, Express, MongoDB; 45+ projects
EDGE Program — BCC, ICT Division; Python & Django

Achievements

VC's & Dean's List Scholarship (2022–2025) | ICPC & IDPC Competitor | Top 4% globally on BeeCrowd (321.11 points)

Education

B.Sc. in Computer Science & Engineering — Green University of Bangladesh *Jan 2026, CGPA: 3.76/4.00*

Languages

Bangla (Native) | English (Fluent) | Hindi/Urdu (Conversational)
